

ASSA ABLOY Garage Doors and LEED® For New Construction and Major Renovations

LEED (Leadership in Energy and Environmental Design) is a voluntary, consensus-based, rating system for developing high-performance, sustainable buildings, developed by The U.S. Green Building Council (USGBC).

ASSA ABLOY Steel Sectional Door products positively contribute to the following LEED® Material and Resources Credits for Green Building Design & Construction:

Materials and Resources Credit 4.1 and 4.2: Recycled Content Percentage

Requirements:

Use materials with recycled content such that the sum of postconsumer recycled content plus 1/2 of the pre-consumer content constitutes at least 10% or 20%, based on cost, of the total value of the materials in the project.

The minimum percentage materials recycled for each point threshold is as follows:

Recycled Content	Points
10%	1
20%	2

ASSA ABLOY steel sectional door products are positive net contributors to Materials & Resources Credits 4.1 & 4.2 10% and 20% recycled goals. Content percentages are listed below.

ASSA ABLOY Commercial Model	Recycled Content %	Pre-Consumer	Post-Consumer
AU2742/AU2042/AU2741	58%	32%	42%
AE2432/AE2731	58%	31%	42%
AP2002/AP2012/AP2022 AP2402/AP2412/AP2422 AP2502/AP2512/AP2522	35%	11%	29%

Materials & Resources, Credit 2.1 and 2.2 Construction Waste Management

Over 95% of our product components are recyclable; therefore, scrap produced during construction can be diverted from landfills through use of a construction waste management plan.

Materials and Resources Credit 5.1 and 5.2: Regional Materials

Manufacturer Locations:

3800 Greenway Circle, Lawrence, KS 66046

Percentages are based on information received from our vendors and have been represented to ASSA ABLOY Entrance Systems as true and accurate.
